

TAMARACK Preserve Ltd.

Upland Hunting • Angling • Sporting Clays

Flight Path

Looking out the window at the falling and blowing snow discourages one from thinking of spring bursting forth immediately, but they tell us that it is about to happen; henceforth, the spring newsletter.

The bird hunting season ends April 15 and we do have birds available. Please call the club for walkups and dog work. There are several release shoots scheduled. If you have not utilized your prepaid bird hunting minimum, now might be a good time to schedule your hunt or driven shoot.

Turkey Hunting season happens in the month of May. If pursuing a turkey is on your list, please call for scheduling. A New York State hunting license and turkey stamp are required.

Trout season opens on April 1st, with stocking to follow in the 2nd week of April. A New York State fishing license is required. We will be scheduling several social events at the fishing lodge. Dates will be posted on the website when finalized. A weekly Email blast is sent each Wednesday to keep you updated to what's happening at the club. If you do not receive the emails or are unable to access the website, please contact us.

We look forward to seeing you soon!
